ARJUN SHARMA

Senior Software Engineer

Bengaluru, India | arjun.sharma@email.com | +91-98765-43210

PROFESSIONAL SUMMARY

Senior Software Engineer with **8+ years of experience** designing, developing, and deploying scalable software applications. Strong expertise in backend development, distributed systems, cloud technologies, APIs, databases, and system design. Experienced in leading engineering teams, mentoring developers, and delivering high-impact products in Agile environments.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL

Backend: Spring Boot, REST APIs, Microservices, Node.js

Frontend: React, HTML, CSS

Databases: PostgreSQL, MySQL, MongoDB, Redis

Cloud & DevOps: AWS, Docker, Kubernetes, Git, GitHub Actions, Jenkins, CI/CD

Architecture: Microservices, Distributed Systems, System Design

Other: Kafka, Linux, Agile/Scrum, Unit Testing

PROFESSIONAL EXPERIENCE

Senior Software Engineer — TechNova Solutions | 2021–Present | Bengaluru, India

- Designed and developed scalable microservices using Java and Spring Boot.
- Improved API response time by approximately **35%** through caching and database optimization.
- Designed REST APIs serving more than **2 million requests per day**.
- Led a team of 5 developers and conducted code reviews and technical discussions.
- Implemented CI/CD pipelines using GitHub Actions and Docker.
- Worked with AWS services including EC2, S3, RDS, and CloudWatch.
- Designed event-driven systems using Apache Kafka.
- Mentored junior engineers and helped establish coding and testing standards.

Software Engineer — Innovate Technologies | 2018–2021 | Pune, India

- Developed backend services using Java, Spring Boot, and PostgreSQL.
- Built and maintained RESTful APIs for multiple business applications.
- Reduced database query execution time by **30%** through indexing and query optimization.
- Implemented automated unit and integration testing.
- Collaborated with product managers, QA engineers, and frontend developers.

Junior Software Engineer — CodeWorks Pvt. Ltd. | 2016–2018 | Mumbai, India

- Developed web applications using Java and JavaScript.
- Created reusable backend components and REST APIs.
- Fixed production issues and improved application reliability.

KEY PROJECTS

E-Commerce Microservices Platform: Designed a scalable microservices architecture using Spring Boot, Kafka, PostgreSQL, Redis, Docker, and AWS. Implemented authentication, order processing, payment integration, and inventory services.

Real-Time Analytics System: Built a real-time event-processing pipeline using Python and Kafka to process large volumes of application events for analytics and monitoring.

EDUCATION

B.Tech in Computer Engineering — Savitribai Phule Pune University | 2012–2016

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate
- Certified Kubernetes Application Developer (CKAD)
- Oracle Certified Professional – Java

ACHIEVEMENTS

- Led migration of a monolithic application to microservices architecture.
- Mentored 10+ junior developers.
- Received an Engineering Excellence Award for improving system performance and reliability.

CORE STRENGTHS

System Design | Problem Solving | Technical Leadership | Team Management | Software Architecture | Code Review | Mentoring | Agile Development
